ABOUT OUR COLLABORATORS

Center for Development of Advanced Computing is implementing the National Super-Computing Mission (NSM), a Capacity Building Initiative of Ministry of Electronics and Information Technology, Government of India. Walchand College of Engineering (WCE), Sangli - Established in 1947 with lavish campus having state-of-the-art laboratories. WCE is one of the Nodal Center for conducting NSM activities. WCE is a State Government aided oldest and autonomous Premier Engineering Institute in Maharashtra, India.

ABOUT FDP

The Program will introduce several parallel programming models, including Open MP for shared memory machines, Message Passing Interface (MPI) for distributed memory machines, and Computer Unified Device Architecture (CUDA) and a parallel computing platform developed by NVIDIA for exploring GPU, AI Tools & Technologies. It will also include hands-on sessions on these programming models.

ABOUT HARSHA INSTITUTE OF TECHNOLOGY

Harsha Institutions is a progressive educational institution dedicated to shaping skilled professionals, confident leaders, and future-ready graduates through quality education and practical learning. Harsha Institutions provides an engaging learning environment that blends theoretical knowledge with real world application. The institution follows an industry-aligned curriculum designed to enhance career opportunities, strengthen practical skills and equip students with the confidence, expertise, and professional mindset needed to succeed in today's competitive global landscape.

OBJECTIVES OF THE COURSE

- To introduce the fundamentals of computing including parallel architectures, programming models and commonly used parallel programming constructs/libraries/languages.
- To deliver hands-on sessions to provide experience in applying HPC tools to both CPU and GPU platforms.
- To educate participants on HPC & AI Technologies to inculcate in their research work.

BENEFITS

- Understanding Multicore and Manycore Architectures
- Shared Memory Parallelism with Open MP
- CUDA Programming
- Distributed Memory Parallelism with MPI
- Parallel Computing Patterns, reduction, Matrix Multiplication, Convolution, etc.
- Profiling Sequential and Parallel Codes
- Performance measures in Parallel Computing, HPC
- AI Fundamentals, Tools & Technologies
- HPC in Artificial Intelligence, RAG

RESOURCE PERSONS

Resource Persons from Institutions of National Importance (IIT, IIIT, NIT), C-DAC, Industries and other Premier Institutions across the Country will deliver the sessions at the FDP.

WHO CAN APPLY?

The FDP is intended for Faculty Members and Research Scholars of affiliated Institutions/Colleges of VTU Belagavi. No registration fee, Registration will be accepted on a first come first serve basis, and participants are encouraged to register early due to limited seats.

BENEFITS

- Interaction with eminent speakers from Industry and Academia.
- Free access to HPC & AI resources during the FDP.
- Free registration for participants.
- Lunch & Accommodation will be provided during FDP.
- NVIDIA Certification in Offline mode on 5th Sep 2026.
